The path to create **a new coated fabric made with purpose**

100% recycled backing made from **PET bottles**

Your choice matters

360 recycled plastic bottles are used to make **30** each meter roll of our Hi-Loft™ RPET backing.

This means that for every meter you purchase, you are **recycling 12 bottles***

*The calculation is based on the weight of a 500ml bottle, which is 17g

This process emits **12.5 kilograms** less of CO2

Inspiration

Certain patterns emerge, leaving their footprint on cultures and civilisations for centuries. Inspired by natural shapes, Vestige celebrates the rich history and elegance of the herringbone design.

This new textile-looking Coated Fabric symbolises the connections we share: past to present, tradition to innovation and craft to creativity. With Vestige, Spradling® stands as a symbol of enduring quality and lasting design.
